Family Caregiver Support Program Narrative

Older Americans Act Title III E

Program / Element / Component – 30.10

Description

The Older Americans Act (OAA) seeks to enable older individuals to maintain their well-being through locally developed community-based systems of services. The OAA Title III E Family Caregiver Support Program provides a variety of services to address the needs of informal, unpaid family caregivers.

The California Department of Aging (CDA) contracts with a statewide network of 33 Area Agencies on Aging (AAA) to plan, develop, and deliver services to older adults, adults with disabilities, and their caregivers. Each AAA is responsible for service delivery in one of 33 geographically designated Planning and Service Areas (PSA). The AAAs may provide services directly or by contract.

The Family Caregiver Support Program (FCSP) provides support to (1) unpaid family caregivers of older adults and (2) grandparents, or other older relatives, with primary caregiving responsibilities for a child. FCSP services include, but are not limited to:

- Respite Care provides caregivers with temporary in-home or out-of-home relief from caregiving responsibilities.
- Support Services include caregiver assessments, counseling, support groups, and training.
- Supplemental Services provide assistive devices, home adaptations, caregiver registry services, and emergency cash or material aid to assist with caregiving responsibilities.
- Access Assistance includes information assistance, interpretation or translation services, and legal resources for caregivers.
- Information Services include public information and community education.

Benefits

FCSP services are designed to reduce caregiver burden, enable caregivers to remain in the workforce and prevent or delay the need for a higher level of care for the care receiver. Information about the caregiving role and available resources empowers

those facing a long-term caregiving situation. Proactive outreach and access to service assistance are vital to preserving and promoting unpaid family support networks. FCSP services help caregivers to cope with stress, depression, multiple personal demands, and competing priorities, and can reduce reliance on more costly formal supports. The availability of emergency or intermittent respite gives the unpaid caregiver a needed break from their caregiving responsibilities. Limited supplemental services address unique needs that threaten the caregiver's ability to provide care.

Eligibility

<i>Income</i>	No requirement
<i>Age</i>	<p>Family caregivers of older adults must be 18 years of age or older.</p> <p>Older care receivers must be:</p> <ul style="list-style-type: none">• Age 60 years or older, or• Individuals of any age with Alzheimer's disease or related disorder with neurologic and organic brain dysfunction. <p>Grandparents, or other older relative caregivers of children, must be age 55 or older.</p> <p>Child care receivers must be:</p> <ul style="list-style-type: none">• Children 18 years of age or younger; or• Individuals of any age with a disability.
